

## Meritor Part

Meritor Parts - The Meritor Company is a premier global dealer established upon 100 years of tradition of service and quality. Meritor specializes in integrated systems with various modules and components to the original machine manufacturers and aftermarket equipment within the transportation and industrial trades.

Meritor prides itself in the company's unique energy and feels that this energy contributes to their competitive advantage within the worldwide operations. The business values their clients and wants to ensure their success while anticipating their various needs. Meritor starts with a tradition that values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring more than eleven thousand two hundred individuals, Meritor promotes innovation and collaboration amongst a team of experienced professionals.

By only employing future focused employees, Meritor strongly feels these top-caliber people would be able to rapidly adapt to changing environments and demonstrate the performance and commitment needed in order to achieve results in the competitive materials handling business. The business empowers their teams to make sound business decisions so as to enhance the overall success of the company. In return, Meritor offers their employees various possibilities for personal and professional growth.

Their Advanced Engineering team is at the forefront of components and system engineering which include axles, drivelines, braking and suspension systems designed for medium and heavy duty trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the entire Asia Pacific region. This particular team is likewise responsible for supporting the needs of all their global engineering workers.

Meritor's dynamic and customer focused Quality team is dedicated to ensuring optimum processing at their aftermarket distribution facilities and production plants that are situated all over the globe in 19 nations and in 5 different continents.

The supplier development network is particularly located to support new business growth. Regional teams are supported by global quality systems, centralized specialties and initiatives in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a fact-based, data-driven method to decision making within each and every aspect of the company. The DFSS or also referred to as Design for Six Sigma ensures product reliability in each and every region. The team is even included transactional Green Belts who use Six Sigma tools to business methods and implement lean methods.
