

Barrel Clamps

Barrel Clamps - A Barrel Clamp is actually a mechanical or hydraulic attachment designed for a lift truck. It can be utilized so as to clutch the item you need to move utilizing the forklift and is often used for handling barrels, kegs and paper rolls. Some designs of barrel clamp attachments also have a revolving function. Like for instance, the revolving function permits the individual operating the forklift to be able to slot in a vertically stored paper inside the horizontal intake of a printing press.
