

Clark Forklift Part

Clark Forklift Parts - Performing worldwide, there are at this time 350,000 Clark forklifts and lift trucks in operation, with upwards of 250,000 of those in use in North America. Clark has five main lines of forklifts across the world, making it one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 exclusive designs of lift trucks, with components covering more than 120,000 particular items for all of its automated equipment. Your regional Clark Seller is your total source for availability of all your parts requirements provided by Clark Totalift.

Clark has a extraordinary Parts Distribution team. The components warehouses are conveniently positioned in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their buyers and their sellers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Motivated to provide the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to enhancing efficiency and benefiting performance.

Internationally, Clark has one of the most outstanding supplier support networks. With over 550 locations worldwide, supplier representation in over 80 nations and 230 locations in North America, their high level of dedication to their customers predominates the material handling industry.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of refinement in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is now a customary feature on every forklift.

Clark has a unyielding objective to possess the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be globally certified with quality standard ISO 9001 in all of its manufacturing plants. Furthermore, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any number of environmental limitations, thus placing them in a dominant market position.

Clark has chosen the system of "Lean Manufacturing" at all of its assembly facilities for the reason that this system is extremely economical and permits minimal use of resources. Established to ensure maximum proficiency, this system is designed to discover and acknowledge the most effective methods for production plant management. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to enhance the proficiency and excellence of their products while minimizing costs. The contemporary value engineering agenda combines modern product growth and delivers improved client support and service within the industry.
