

## Concrete Hoppers

Concrete Hopper - This accessory is a self-dumping hopper which automatically starts to unload as bumper release contacts the side of a dumpster. As soon as unloading is done, the hopper returns to an upright and locked position. This piece of machinery is also accessible together with a cable that enables operation from the seat of the forklift in order to have the option of manually dumping the hopper. There is a locking chain provided so as to secure the hopper to the tine truck. This particular product is constructed with reliable and consistent robotic welds for maximum strength. The lift truck dumping hopper likewise has a blue powder coat finish so as to maintain durability.
